OBJECTIVE

Highly motivated and results-oriented 4rd year IT student seeking a Java Development Internship to leverage Java and Spring Framework skills for back-end development, with the ability to contribute to front-end development using Angular. I look forward to gaining hands-on experience, contributing to a team environment, and improving my software development skills.

PROJECTS

Vegetfood (Personal Project)

02/07 - 15/07

Role: Web Developer

DESCRIPTION

- Design and develop web applications.
- Implement MySQL schemas, and queries to support front-end data requirements.
- Integrate VNPay payment and google authentication.

TECHNOLOGY USED

Back-end: Java Spring Framework (Spring Security, Spring Data JPA, Spring boot)
Front-end: HTML, CSS, JS, Thymeleaf
Github: <https://github.com/lethanhtuan939/VegetFood-SpringBoot>

Health Declaration (Personal Project)

02/2024 - 05/2024

Role: Web Developer

Team size: 4

DESCRIPTION

- Design and develop web services.
- UI design and BE integration using Angular.

TECHNOLOGY USED

Front-end: Angular
Back-end: Java Spring Framework (Spring Security, Spring Data JPA, Spring boot)
Github: <https://github.com/lethanhtuan939/Health-Declaration>
